PERSONAL PROJECTS

Real-Time Weather Insights

- **Developed** a dynamic Weather API application using JavaScript and Java.
- **Integrated** real-time weather data from external APIs for accurate forecasts.
- **Implemented** efficient data fetching and asynchronous processing.
- **Designed** a responsive UI using DOM manipulation for seamless user experience.
- **Optimized** performance and error handling for reliability across devices.
- [Link of the project.](#)

BuildCon Responsive Web App

- **Developed** a responsive BuildCon-based web application using Bootstrap.
- **Designed** a user-friendly UI with modern layouts and interactive components.
- **Optimized** for mobile and desktop viewing with flexible grid systems.
- **Implemented** dynamic content rendering and smooth navigation.
- Ensured cross-browser compatibility and fast load times.
- [Link of the project.](#)

SkillsSphere with Tailwind CSS

- **Built** a sleek and modern SkillsSphere website using Tailwind CSS.
- **Designed** a highly responsive UI with utility-first styling for efficient development.
- **Implemented** interactive components for seamless user engagement.
- **Optimized** performance with minimal CSS bloat and fast-loading pages.
- Ensured accessibility and cross-device compatibility for a smooth experience.
- [Link Of the project.](#)

CODING PROFILE

Leetcode

150+ Problems solved with Two Times 50 Days Badge

CodeChef

Solves 600+ problems in Code chef with Diamond Badge

ACHIEVEMENTS

CodeChef

200+ Days of daily Problem-solving streak with 500+ Questions solve

HackerRank

5 Star in Hacker rank with Problem solving accomplishment

GeeksforGeeks

150+ Problem solved with 50+ days of daily streak

CERTIFICATES

AZ-900: Microsoft Azure Fundamentals

Grasp core cloud concepts Completed Successfully

Problem Solving (Basic)

Successfully Certificate of Accomplishment
